EDUCATION

The University of Texas at Austin, Austin, TX

Anticipated May 2029

Bachelor of Science in Informatics, Human-Centered Data Science & Cybersecurity

GPA: 3.60

Relevant Coursework: I 310U User Experience Design (in progress), I 310D Human-Centered Data Science (in progress), I 305 Research Methods for Informatics, AET 304 Arts & Entertainment Technology (in progress)

SKILLS

Design & Research: Figma, wireframing, prototyping, information architecture, user research methods, usability testing, competitive analysis, design systems, accessibility

Frontend: React 18, Next.js, Vite, Tailwind CSS, React Router, HTML/CSS, responsive UI, TypeScript, JavaScript

Also: Python, FastAPI, Supabase, PostgreSQL, Git, GitHub Actions, Vercel, Figma to code, Blender, Onshape, AutoCAD, Tableau

EXPERIENCE

HINDU CHARITIES FOR AMERICA: AI with All Hackathon, Austin, TX

Jul 2026 - Present

Tech Lead and Product Designer

- Designed the participant app in Figma for a 600-person youth hackathon: a live Now and Next status ticker that cuts cognitive load during a fast event, a preset user ID sign-in that removes account-creation drop-off, a self-guided design-sprint roadmap, and a faceted directory across nonprofits, sponsors, and schools
- Benchmarked the flows against SXSW, MLH, and Devpost, then scoped the design for 500 students, 100 teams, and 20 pods across 2 venues under COPPA and FERPA constraints

PERSPECT (tryperspect.com), Austin, TX

Jan 2026 - Present

Founder and Designer

- Designed and shipped the full interface solo: a multi-persona debate view, a contradiction map that shows where the personas disagree, a synthesized briefing, and follow-up prompts; top 20 at Claude Hackathon 2026
- Built the frontend on React 18, Vite, Tailwind, and React Router 7, then ran a first classroom beta and reworked the flows on what real students got stuck on

SUSTAINABLE BUILDING INITIATIVE (UT Austin), Austin, TX

Feb 2026 - Present

Tech Director

- Lead a 10 to 15 person team building the org website, reviewing every change before release and running recruiting, interviews, and onboarding

Software Developer, Tech Team

Feb 2026 - Aug 2026

- Designed and shipped the public Reports feature end to end, from the submission flow to the image-validated storage behind it, with Supabase and Next.js

Tech Lead, Drone Road-Inspection Research

May 2026 - Present

- Lead a 10 person research team turning drone footage into a georeferenced crack map, and built the proof of concept that set the team's direction

BIZFIRST AI, Remote

Jun 2026 - Aug 2026

Software Engineering Intern

- Contributed to StorageStudio, an open-source React interface for S3-compatible storage, owning the backend API design behind the screens
- Built 3 tools that let a multi-agent orchestrator generate valid form schemas from plain-language prompts, removing hand-written schemas from the workflow

PROJECTS

NETSENTINEL | React, TypeScript, FastAPI, XGBoost

2026

- Designed a real-time threat dashboard around a 3D globe, turning a stream of intrusion alerts into something a person can scan at a glance, backed by a model with 96% precision on denial-of-service traffic

GRAVITY-ZERO | React, Monaco, FastAPI, LM Studio

2026

- Built a fully local AI IDE with a Planner, Coder, and Reviewer agent triad, designing the handoff between the three so the user can follow what each agent changed

LEADERSHIP & COMMUNITY INVOLVEMENT

TEXAS NOVA CONSULTING, Austin, TX

Sep 2026 - Present

Tech Analyst, Fall 2026 Analyst Class

- Selected through a competitive application and panel case interview for UT's AI and technology consulting organization

BLOOD BUDDY

2022 - 2024

Founder

- Founded a platform that matched 8,000+ blood donors with recipients and enabled 100+ transfers, designing the flows and running outreach before handing it off

HONORS AND AWARDS

- Top 20, Claude Hackathon 2026 | 5th Place, UT MLDS DataHack 2026 | National Cyber Scholar 2024 | CyberPatriot State Semifinalist
