EDUCATION

The University of Texas at Austin — Bachelor of Science in Informatics, Human-Centered Data Science & Cybersecurity — May 2029
Overall GPA: 3.60
Relevant Coursework: Human-Centered Data Science, Research Methods for Informatics, Microeconomics

EXPERIENCE

ICELIS Global - *ESG Consulting Intern; Remote to Doha, Qatar* — June 2026 - July 2026
- Delivered 90 slides of consultant-ready client training on IFRS S1/S2, GRI Standards, and the GCC regulatory landscape, including a 22-slide materiality-assessment playbook with scoring rubrics and an 8-week engagement plan
- Produced reference matrices spanning an IFRS vs GRI comparison, a six-step reporting process guide, and a regulatory scan of 5 GCC markets (QFMA, ADX, CBB, FSA, regional CMAs)
- Presented 4 strategic proposals to firm leadership, including a monthly regulator update tracker, a client intake questionnaire, and an AI agent for first-touch client scoping
- Earned a letter of recommendation from the Founder and CEO at the close of the 4-week engagement

BizFirst AI - *Software Engineering Intern; Remote* — June 2026 - August 2026
- Shipped the company's V1 self-hosted storage platform, cutting third-party storage dependency by designing tiered quotas that scale to 90% of disk, 365-day lifecycle expiration, and automated offsite backups
- Built 3 tools that let the firm's multi-agent AI orchestrator generate valid form schemas and call its REST API from plain-language prompts, removing manual schema writing from the workflow
- Documented 12 enterprise design patterns from the platform migration, giving the team a reference for future architecture decisions

Perspect - *Founder; Austin, TX* — January 2026 - Present
- Built and launched an AI research product solo, where a panel of expert personas debates a question, maps where they disagree, and returns a briefing with cited sources; placed top 20 at the Claude Hackathon 2026
- Ran a first classroom beta with 50+ student users and self-funded the product under a monthly spend cap, iterating on their feedback

Logica Consulting Group - *Tech Intern; Austin, TX* — May 2024 - June 2024
- Delivered a client-facing product for 50+ small-business users on a 3-person team, cutting page load times 20%
- Authored onboarding documentation that reduced new-intern ramp time 40%, and partnered directly with client stakeholders

PROJECTS

Data Center Siting Analysis - *Client: Intel (Global Career Accelerator capstone)* — 2026
- Analyzed 4M+ rows of hourly U.S. energy-generation data in Tableau to recommend a data-center region, building calculated fields, a parameter-driven dual-axis time series, and an interactive dashboard; scored 209/200
- Recommended the Northwest on surplus capacity and a 52% renewable mix, and ran A/B tests at 95% confidence across 14+ analytics milestones spanning entertainment, transit, sports, and e-commerce data

Drone Road-Inspection Research - *Client: SBI x UT Austin; Tech Lead of a 10-person team* — 2026
- Set technical direction for a 10-person research team turning drone footage into a georeferenced crack map, then split the team into 2 sub-teams and defined the data-collection strategy
- Delivered a working proof of concept in days at zero cloud cost, and identified a camera-angle gap that redirected the team's entire collection approach before it wasted a semester

Customer Retention Modeling - *UT Austin MLDS DataHack, 5th Place* — 2026
- Built skip-prediction and customer-lifetime-value models on a large music listening dataset in 24 hours, engineering the feature pipeline that drove the team's ranking

LEADERSHIP EXPERIENCE & ACTIVITIES

Sustainable Building Initiative - *Tech Director (Aug 2026 - Present)* — Feb 2026 - Present
- Lead a 10 to 15 person team, running recruiting, interviews, and onboarding, and approving all work before release
- As Co Vice Director for Business Oversight in Spring 2026, partnered with leadership on performance tracking and resource decisions

Texas NOVA Consulting - *Tech Analyst, Fall 2026 Analyst Class* — Sept 2026 - Present
- Selected through a competitive application and panel case interview for UT's AI and technology consulting organization
- Completing a case-based consulting curriculum and skills workshops this fall, moving into a live client engagement in the spring

Hindu Charities for America - *Tech Lead, AI with All Hackathon* — July 2026 - Present
- Co-lead technology and student-council operations for a 600-participant youth hackathon, coordinating a 3-person build team on a one-month timeline under COPPA and FERPA constraints

HONORS

- Top 20, Claude Hackathon 2026 | 5th, UT MLDS DataHack 2026 | National Cyber Scholar 2024 | 6x CyberPatriot Semifinalist

SKILLS & ADDITIONAL INFORMATION

Computer Skills: Tableau, Excel (PivotTables, SUMIFS, XLOOKUP), SQL, Python (Pandas, scikit-learn, XGBoost), TypeScript, A/B testing, React, PostgreSQL, Docker
Certifications: SANS Foundations, GIAC
Languages: English (fluent), Telugu (fluent), Hindi (conversational), French (elementary)
Interests: Cars, product design, and taking things apart to see how they could work better
